

Address History & Moves : Interview Practice Questions

(answer truthfully; don't guess—use documents to verify).

1) Address history overview (last 3–5 years)

- List every place you lived in the last 3–5 years (in order).
- For each address: full address if known, or at least city/town + state.
- For each address: approximate move-in month/year and move-out month/year.
- Was it an apartment, house, room rental, or living with family/friends?

2) Current address details

- What is your current full address (street, unit number, city, state, ZIP)?
- When did you move into the current address (month/year)?
- Who lives there now (both spouses, children, roommates if any)?
- Who is on the lease/mortgage at the current address?
- How much is rent/mortgage (approx) and when is it due (if known)?

3) Moving in together vs living separately (timeline clarity)

- When did you first start staying over regularly at each other's place?
- When did you officially start living together (month/year)?
- Before living together, where did each of you live (city/town and who you lived with)?
- If you lived apart for any periods after dating/marriage, when and why (work, lease timing, family)?

4) Prior addresses (detail checks)

- For each prior address: why did you move there originally (job, school, cost, family)?
- Why did you leave that address (lease ended, moved in together, price, conflict, relocation)?
- Who helped with the move (friends/family)?
- Did you use a moving truck/storage unit? Which one (if remembered)?

5) Lease and housing paperwork

- At each address: was there a written lease, month-to-month, or informal arrangement?
- Whose name was on the lease at each place (you, spouse, both, roommate)?
- Who was the landlord/property management (name if known)?
- How did you pay rent (online portal, check, cash)?
- Do you still have old leases or rent receipts? Where are they stored (email, folder)?

6) Bills and utilities at each address

- At each address: which utilities were in your name vs your spouse's name (electric, gas, internet, phone)?
- Were any utilities included in rent? Which ones?
- Which internet provider did you have at each address (if remembered)?
- How were bills paid (autopay, manual, shared split)?

7) Mail and official records (consistency with addresses)

- Where did you receive mail at each address (mailbox, lobby, mail slot)?
- Did you file USPS change-of-address when you moved? When?
- What address is on your driver's license/state ID right now?
- What address is on your bank statements (or most important accounts) right now?
- What address was used on immigration forms (and does it match your timeline)?

8) Roommates or household members (if applicable)

- Did you have roommates at any address? Who (first names only if needed)?
- Did either of you live with family at any point? Which relatives and where (general area)?
- Any shared housing arrangements (sublet, renting a room) and how long?

9) Travel/temporary stays vs primary residence

- Have you ever stayed somewhere temporarily for a long period (over a month)? Where and why?
- During that time, what was your primary address officially (lease, bills, mail)?
- Did you keep belongings at the primary residence or move everything?

10) "Reality check" questions (recent and specific)

- What was the exact month/year you moved into your current address?
- What was the address immediately before your current one (or at least city + neighborhood)?
- Who was on the lease at your previous address?
- Which utility bill was in your name at the previous address (electric/internet/etc.)?
- Who paid the first month's rent/security deposit at the current address?

Tip: Build a simple timeline with month/year + address. Cross-check with leases, utility emails, bank statements, and photos (by date) to avoid guessing.
